Subject: THC Quant's

Hi Julie,

I'm just emailing to give you a heads up. I have been talking with 3 local ADA's about quants for marihuana, supposedly grown using hydroponics. The samples weighed between an ounce and to 9-10 lbs. I tried to explain because of Melendez-Diaz we are falling behind and we can't do quants. So you might be getting a call from DA Bill Bennett requesting quants.

Thanks,

Jim
